About

Nectere Solutions Ltd

We are a registered business which deals with supply of IT related goods & services, Electrical and solar installation, Security Systems, Voice, Information Management systems, etc. We aim to supplement product excellence with outstanding services at affordable prices.

The Corporate Package

In today's increasingly technology driven marketplace, it is critical to keep up with the latest innovations and solutions in order to make the most of your investments and keep your business moving forward. With NSL, you will find cost efficient support to provide your business with a competitive advantage. We don't stop at supplying products or giving you a service, we stay for maintenance and give you support. We have a wide range of products tailor-made for you.

Management Information Systems

This includes both the hardware and software used to store, process, and retrieve data enabling informed decision making. Companies nowadays need Tech-driven systems to help prevent operational disruptions and delays like taking long when searching for relevant information among others. NSL has custom-made Management Information systems, to help improve effectiveness and help your workers find and use all the necessary information way easier and faster.

Supply of Safety Equipment & Industrial Products

Networking

Nectere Solutions Ltd's experienced professionals can deliver an effective Network Infrastructure based on your environment and business needs. We carry out;

- Network Audit
- Network design
- Planning and procurement
- Implementation
- Proactive management and maintenance
- Remote network access and on site support

Security Systems

Ensuring the safety of people and Commodities within the Business Premises is a paramount responsibility for Employers. To achieve this, our security solutions leverage a combination of advanced surveillance technology and robust physical safeguards to build comprehensive protection for everyone and everything at the premises.

We have affordable CCTV packages, Alarm systems, Electric and Razor Fences, Automatic Gates, among others.

Time, Attendance & Access Control Systems

With NSL's access control solution, Business owners can limit access to certain offices, work stations or parts of a building and can define which areas the staff and visitors can access. It is a simple and easy solution to meet compliance, gauge access levels, and keep a watch on employee attendance.

We help you capture employees' attendance with work performance without having to engage manual registers.

Intercom | Voice

We offer SIP / VOICE Configuration, Video Conferencing Solutions and Intercom. We also supply Public Address Systems and phones to ease the communication needs of your business premises.

IT Support

This is inclusive of all Computer Repairs, maintenance services, equipment supplies and all IT Related services that the school may require.

Other Services

We also do;
Electrical and Solar Installations and Maintenance
Networking Solutions, Electrical Repairs, and IT
Consultancy.
